

Data access, automation and dashboarding
solution for monitoring and sharing KPIs

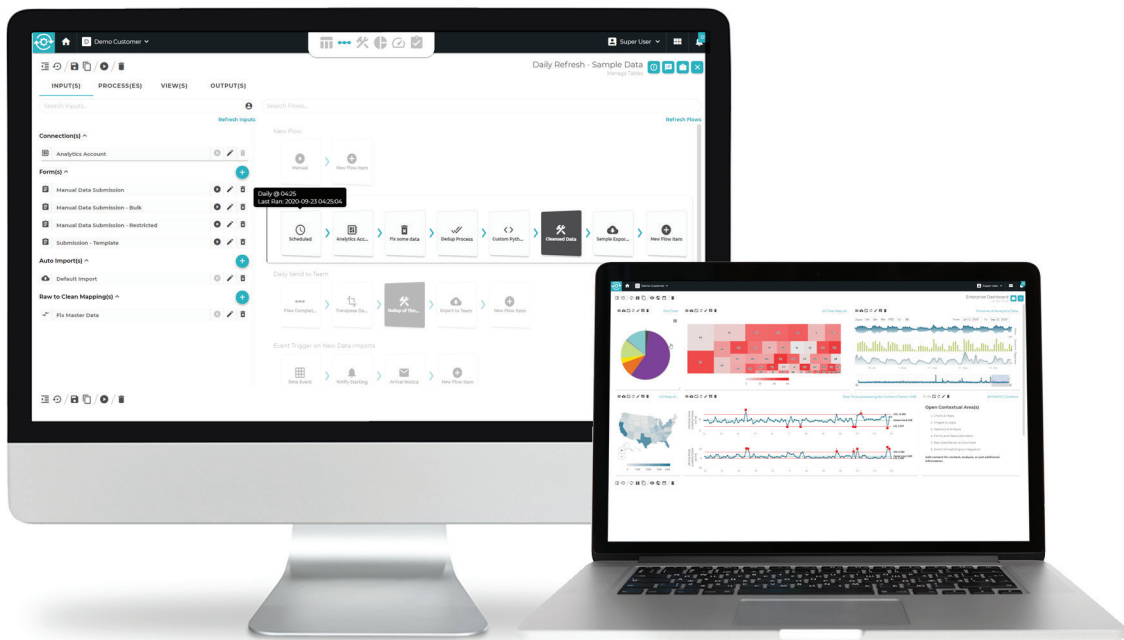

Minitab 
AUTHORIZED PARTNER

BIZIT
Systems

Minitab Connect®

Automate reports to share and track information for meaningful business intelligence. Instant alerts communicate changes requiring action or a deeper dive into your data.

Why continue building the same report and analysis every day, week or month? Use Minitab dashboards to set-up your report to run regularly and be shared easily with those that need to see it. Automatic updates allow you to monitor key processes and performance indicators. Alarms enable you to go beyond ordinary BI tools to communicate a change. Take action to improve or dive deeper into your data for further analysis with Minitab Statistical Software.

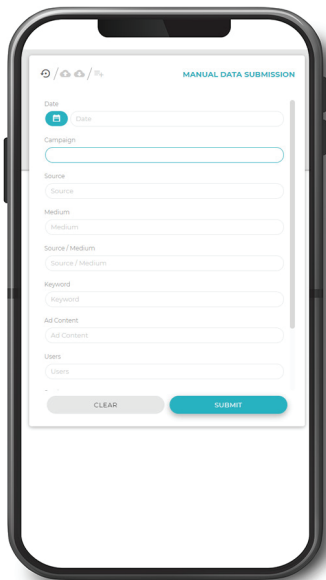

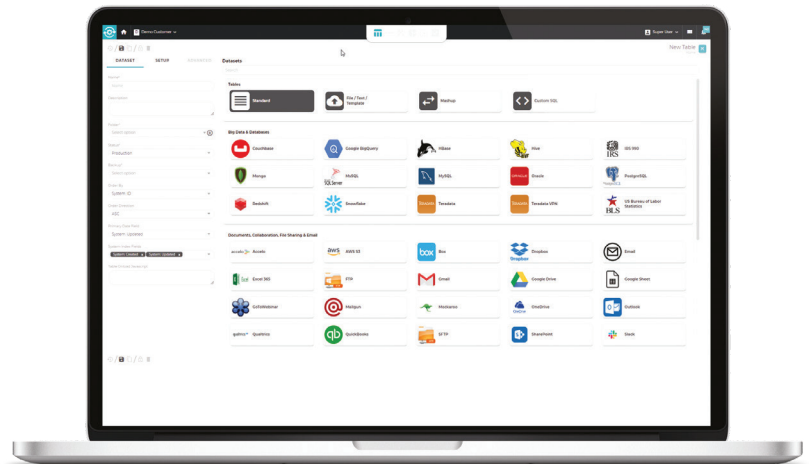

Access

Self-service data access

Access and integrate your data from a variety of sources. Stop wasting precious time formatting and blending CSVs and spreadsheets. Minitab Connect allows you to set-up your analytics dashboard once and automatically updates as your data changes.

Form-based data collection supports data quality

Customizable forms enable direct data entry, creating efficiencies by eliminating the need for spreadsheet sharing and uploads. Embedded validation tools and automated workflows reduce errors and standardize processes.

Prepare

Search and explore data to uncover insights

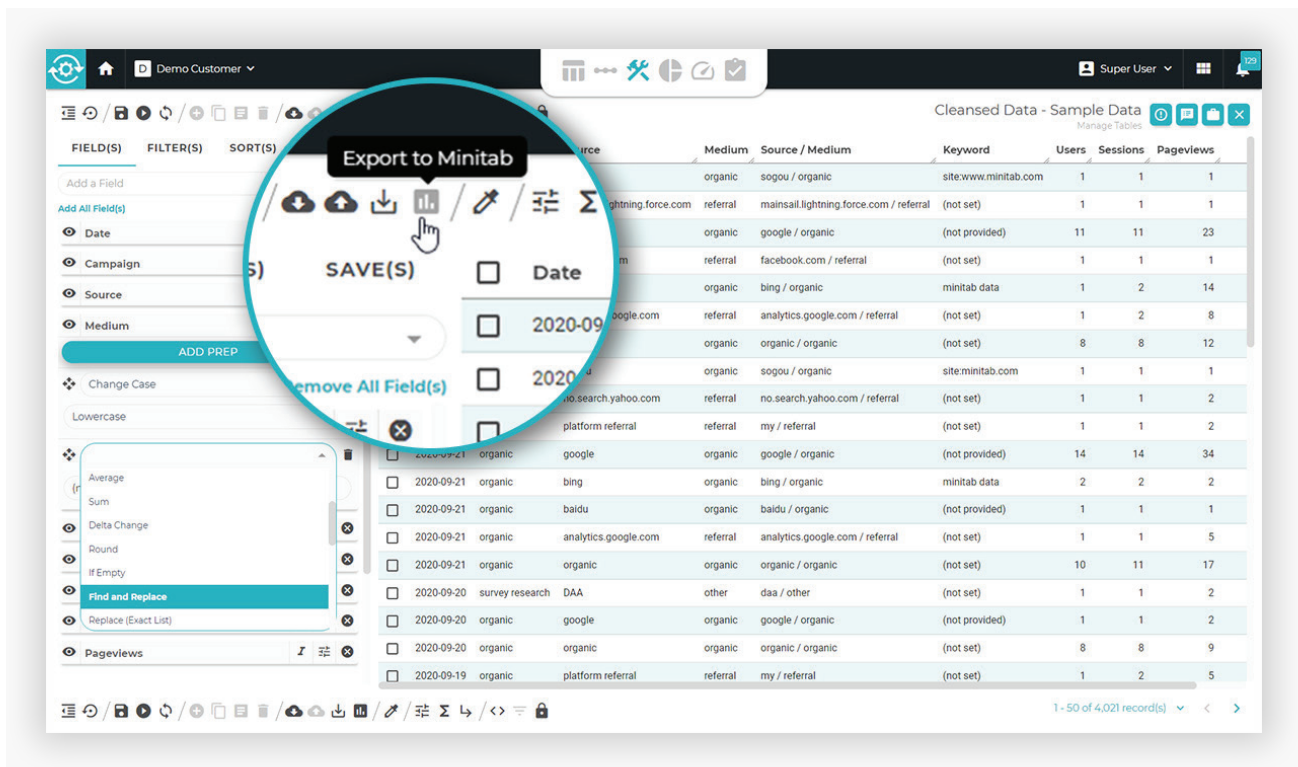

Self-service data preparation tools empower users – from data scientists to business analysts – to quickly profile, curate, enrich, and shape diverse datasets using a spreadsheet-like interface.

Collaborative tools help maximize productivity

Data preparation steps can be shared with other users as repeatable workflows, eliminating repetitive data setup processes.

One-click delivery for in-depth analysis

Seamless access allows users to send prepped data directly into Minitab® Statistical Software.

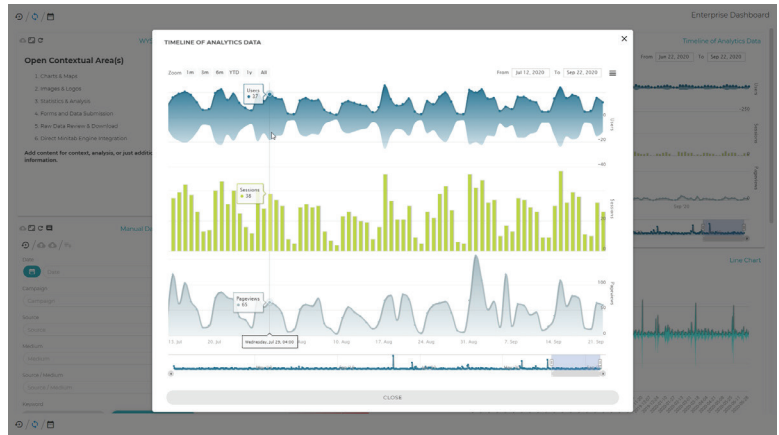

Visualize

Interactive visuals for deeper understanding

Dynamic, real-time charting with interactive elements allow users to explore data and drill down to answer more questions.

Dynamic tools to encourage reporting engagement

Dashboarding tools include highly flexible, configurable design and formatting options to facilitate meaningful reporting.

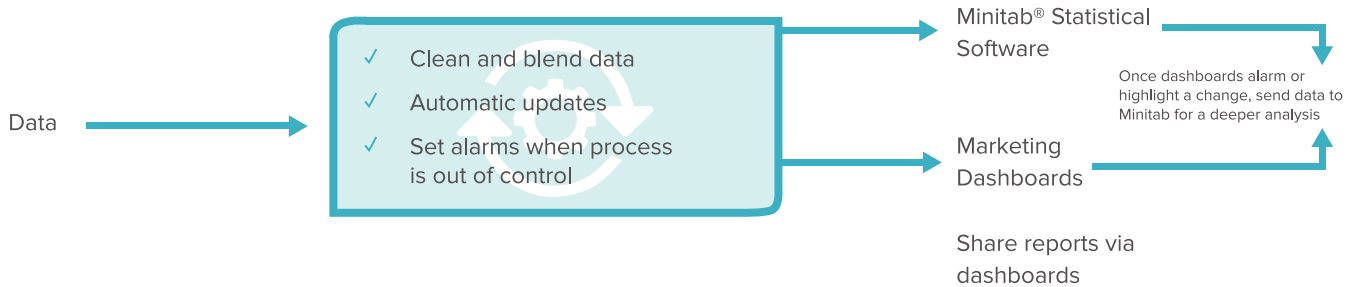

Deliver insights that inspire action

Data visualizations and dashboards can be shared - securely - with relevant stakeholders across the enterprise and beyond.

Quality and Continuous Improvement

Access and prepare data for automated monitoring of processes and KPIs on dashboards. Go beyond Business Intelligence with instant alerts communicating changes in your process or performance that require action or a deeper dive into your data for further analysis.

Marketing

Drive strategic digital marketing with blended data and automated workflows for comprehensive campaign tracking, enhanced ROI analysis, and multi-touch attribution.

University

Support student data management by blending relevant data sources to update admissions pipeline inform financial planning and enhance capacity analyses.

You have data. We have solutions. Imagine the possibilities.

At Minitab, we help customers around the world leverage the power of data analysis to gain insights and make a significant impact on their organizations. Whether you're just getting started with analytics, implementing machine learning, or creating better visualizations and dashboards, our experts and solutions will support your organization every step of the way.

About Minitab

More than 50 years ago, Barbara Ryan, Minitab's Chairwoman and co-founder sought to revolutionize the way statistics and analytics were taught and applied. She, alongside two colleagues, developed and introduced Minitab Statistical Software at Penn State University. Over time, the software was rapidly adopted by universities and high schools and across industries and became the market leader for analytics used in quality and continuous improvement fields.

Fast forward to today, and Minitab is still revolutionizing the analytics market. Minitab solutions help your business make better decisions, by leveraging our Solutions Analytics™, an integrated approach that combines our ecosystem of problem-solving solutions and first-class support team.

About Bizit Systems

Established in 1991, Bizit Systems offers software, electronic, and robotic solutions to help our customers achieve top quartile business performance in a competitive world. As the Minitab Authorized Partner in Singapore, Malaysia, and Batam, our company offers affordable and flexible Minitab product licensing, free technical support, Minitab original training courses, statistical consulting, and free events, for instance, webinars and workshops.
